

Major Route Points

A quick driver study guide for explaining where each Route Trainer route travels - now with a mini corridor map for every route.

Use these as route-overview talking points. Yellow mini-map lines show the route corridor and the labels call out the main streets. They are not a replacement for the current operator sheet, detour instructions, or a live navigation decision.

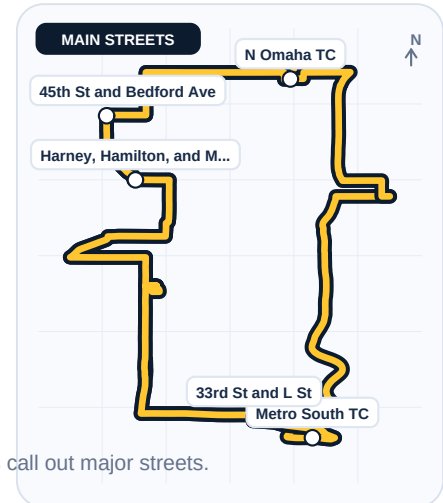

How to use this guide

Each route is reduced to eight memorable movement points with a compact visual locator. For routes with different patterns in each direction, use the current schedule and operator sheet to confirm the exact variation.

North 40th / South 42nd

- 1 Metro South Transit Center
- 2 Babe Gomez Avenue
- 3 33rd Street and L Street
- 4 42nd Street
